OBJECTIVE

A technically skilled graduate with strong experience in system design, programming (C, Java), troubleshooting, and collaboration with internal/external partners. Eager to apply my expertise in technical problem-solving, SQL/MySQL, and Unix/Linux to deliver scalable solutions for global customers at Google's gTech Ads Sellside team.

EDUCATION

B.Sc Computer Science (9.15CGPA)

Savitribai Phule Pune University
2023

12th (66%)

Maharashtra State Board
2020

SKILLS

Technical Skills:

- **Languages:** Java, Javascript, C
- **Database Technologies:** SQL, MySQL
- **Frameworks:** Spring Boot, Reactjs
- **Web Development:** HTML, CSS, Tailwind
- **Operating Systems:** Unix, Linux
- **Troubleshooting Tools:** Debuggers, Log Analysis
- **Cloud Services:** AWS, Google Cloud Platform
- **Other Tools:** Docker, Kubernetes, Git, CI/CD
- **Soft Skills:** Stakeholder Management, Communication, Cross-team Collaboration

CERTIFICATES

- HackerRank SQL [🔗](#)

PROFESSIONAL EXPERIENCE

Freelance Developer

Food Export-Import Company

- Designed and implemented backend services to their static website.
- Provided system troubleshooting for internal tools and applications, collaborating with stakeholders to deliver reliable technical solutions.
- Integrated MySQL databases into existing systems, improving data accessibility and reporting efficiency.

PROJECTS

Personal Expense Tracker (A+ Grade)

Tech Stack: Java, JSP, MySQL

Developed a user-friendly personal expense tracker, enhancing financial awareness, budgeting efficiency, and fostering mindful spending habits for users. Empowered users with financial awareness, efficient budgeting through personal expense tracker.

2024 T20 World Cup Dashboard

Java Spring Boot, React, MySQL

- Imported match and player data from Excel files and batch processed it into a MySQL database using Spring Batch. This allowed for efficient handling and updating of large datasets.
- Developed an interactive and dynamic dashboard to track and display scores, and key insights for the 2024 T20 World Cup.

CORE COMPETENCIES

- **System Design & Programming:** Expertise in Python, Java, C++, and designing scalable systems.
- **Technical Troubleshooting:** Proven track record in identifying and resolving technical issues across software and systems.
- **SQL/MySQL & Unix/Linux:** Strong knowledge of database management, Unix/Linux systems, and command-line tools.
